PROFESSIONAL SUMMARY

Head of Content with 8+ years across finance, foreign exchange (FX) and contracts for difference (CFD), crypto, and Web3, currently leading content for mb.io, the regulated crypto spot exchange of MultiBank Group. Master of Business Administration (MBA) in Digital Marketing. I direct multi-brand content strategy, search engine optimization (SEO), answer engine optimization (AEO), generative engine optimization (GEO), performance marketing, and Web3 event marketing, and I build the artificial intelligence (AI) tooling that scales it, including a content management dashboard used daily in production and Cryptopedia, a 100+ article crypto knowledge base. Recent results: 300+ posts across 5 platforms in 7 months, +94% onboarding email conversion, click-through rate lifted from 0.75% to 9%, and an over-the-counter (OTC) deal channel opening at \$200,000 per conversation.

WORK EXPERIENCE

Head of Content, mb.io (formerly MultiBank.io), part of MultiBank Group, UAE | Dec 2025 - Present

- Own the full content lifecycle across three brand accounts (mb.io, \$MBG Token, and the CEO's executive brand): editorial calendars, long-form content, earn campaigns, paid advertising copy, client communications, and the market intelligence layer behind a weekly Monday Outlook; 300+ posts published across 5 platforms in 7 months.
- Built and scaled Cryptopedia, the mb.io crypto knowledge base, to 100+ published articles against a 300+ topic roadmap, with every entry structured for search engine optimization (SEO), answer engine optimization (AEO), and generative engine optimization (GEO) to win Google rankings, featured snippets, and citations in ChatGPT, Perplexity, and Gemini.
- Designed and built an AI-powered content management dashboard in-role using Google AI Studio, Firebase, and Claude Code: multi-brand scheduling with approval workflows, a brand-voice writing agent, a 100+ topic blog pipeline, and automated content gap detection; used daily by the writing team.
- Lead organizer of mb.io's Platinum Sponsor presence at Istanbul Blockchain Week 2026: managed vendors and event organizers end to end, ran key opinion leader (KOL) relations on the ground, and hosted the invite-only VIP dinner for high-net-worth individual (HNWI) partners, the highest-return element of the event.
- Source and manage KOL partnerships as an over-the-counter (OTC) deal channel, converting influencer relationships into desk-level conversations opening at \$200,000 and above.
- Publish the weekly company newsletter covering crypto market updates and company news, plus market analysis on industry-moving events such as regulation, exchange-traded fund (ETF) flows, and protocol upgrades, across a blog now carrying 150+ live articles.
- Led end-to-end content for the \$MBG Token lifecycle from pre-sale through token generation event (TGE), including a Markets in Crypto-Assets (MiCA) compliant whitepaper, decentralized autonomous organization (DAO) governance communications, and community activation across X, Telegram, and LinkedIn.
- Contributed core content to a KOL-amplified social program reaching 5.8 billion impressions in a 90-day window.
- Write and optimize performance copy for Google Search, Meta, and Performance Max campaigns, app store optimization (ASO) copy for Google Play and the App Store, and user interface and user experience (UI/UX) microcopy for the mb.io app.
- Represent mb.io at Binance Blockchain Week 2025, RWA Week 2026 Dubai, Bitcoin Pizza Day 2026 at TheBlock, and Philippine Blockchain Week 2026, yielding high-value contacts and an OTC network; develop positioning for the mb.io RWA marketplace as institutional-grade infrastructure backed by a multi-billion-dollar ultra-luxury real estate portfolio.
